

Assignment – 4

Name: Shashank Raj

Roll: 25SCS1003001227

Sec: 2CSE14

// Q1. Check Even/Odd and Positive/Negative

```
import java.util.Scanner;

public class Q_01 {

    public static void main(String[] args) {

        Scanner sc = new Scanner(System.in);

        System.out.print("Enter a number: ");

        int num = sc.nextInt();

        if (num > 0) {

            System.out.println("The number is Positive");

            if (num % 2 == 0) {

                System.out.println("It is Even");

            } else {

                System.out.println("It is Odd");

            }

        } else if (num < 0) {

            System.out.println("The number is Negative");

            if (num % 2 == 0) {

                System.out.println("It is Even");

            } else {

                System.out.println("It is Odd");

            }

        } else {

            System.out.println("The number is Zero");

        }

        sc.close();

    }

}
```
